

Technical Product Information

ADiNO® CL 4975.0

Formerly CL 75

Cleaning and Release Agent

Application

- Removal of persistent dirt and contamination from hands and tools. Especially suitable to remove residues of water-based and solvent-based adhesives
- Release agent for hands in direct contact with water-based and solvent-based adhesives during manual assembly works

Characteristics

- Good skin compatibility
- Mild odour
- Efficient adhesive removal without water

Technical Data

Colour	:	White
Appearance	:	Cream
Density	:	approx. 0.84 g/cm ³

Instruction for Use

Rub some ADiNO® CL 4975.0 cream into hands without addition of water, until the residues to be removed are dissolved. Rinse with water or remove thoroughly with a cloth. The product can be easily used also in places where no water supply is available.

Packaging / Storage

500 ml jar / shelf-life 12 months after production date.
Keep in a cool and dry place

All information based on internal tests and many years of practical experience. The variety of materials used and different work conditions, which lie beyond our control, preclude any claims based on this data. We recommend performing sufficient test and pilot run that our technical service team gladly support.
